makuta UX

Veda IIT invites applications for
User Experience Trainee Recruitment

4 to 6 Month Company Sponsored Full-time Training with Veda IIT Knowledge Intensive and Industry-oriented Training.

MakutaUX is part of the Makuta family that brought you VFX for ground-breaking blockbuster films including "Eega (Makkhi)", "Maghadheera", "Ghajini" and "Baahubali".
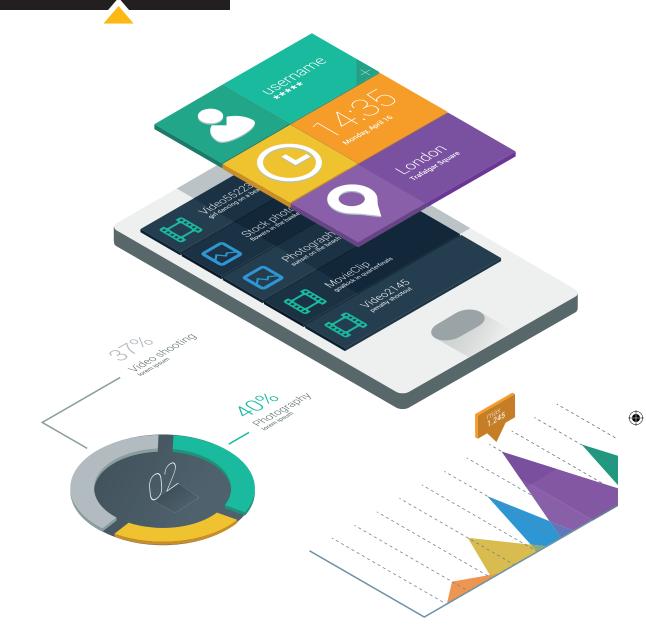

MakutaUX is now bringing the same quality to the domain of "User Experience" with the desire to create products that are interactive, intuitive and fun to use.

Upon your successful selection, you will be trained by Veda IIT - a leader in industry-driven Information Technology programs. Your performance in the Veda IIT program will determine a placement within MakutaUX.

User Experience Designer: Someone who understands the vision of a product. Creatively translating this into product's aesthetic and user experience. Working with a variety of devices including but not limited to desktops, mobiles, tablets and wearables. He/She defines how the product works for and with a customer. He/She would create detailed designs, sketches, style guidelines, low and high fidelity prototypes, wireframes, storyboards, scenarios, flow diagrams and site maps to effectively communicate design intent.

You are: A thinker! Someone who questions why things are the way they are and have a drive for self development and problem solving. You are passionate about whatever you do and are constantly playing with new ideas.

Apply at: Veda IIT with a DD of 300/- in favour of Veda Institute of Information Technology Private Ltd. Payable at Hyderabad, to reach by "Apply by" Date.
